FOUNDED
2003

RELEASED
2007

600+ MAN
YEARS OF CODE

100% EMPLOYEE
OWNED

All Core ERP Modules

The Community Edition includes light Versions of all core ERP modules

Unlimited Records

Unlimited customers, unlimited inventory items and unlimited transactions

100% Free

Really. No joke. 100% Free
Now allows up to 50 users!

On Premise

The Community Edition is designed to be run locally and does not include web services

Smart Upgrade For...

The Community Edition is a smart upgrade for those running off the shelf applications like Quickbooks or any 'dead end' ERP solution

✓ **Includes Additional Modules**

The Essential Edition adds shipping, eCommerce and Point of Sale.

✓ **Optional eShopConnected**

Connected to third party shopping cart solutions and marketplaces like eBay and Amazon.

✓ **Includes 24/5 Tech Support**

The Essentials Edition includes our 24/5 customer care support package.

✓ **On Premise or Cloud**

The Essentials Edition is available both on premise and in the cloud.

Includes More Modules

The Professional Edition adds CRM, Business Intelligence and Warehouse Management.

Includes Advanced Features

The Professional Edition includes many advanced features that are not included in the other editions.

Easily add Optional Modules

The Professional Edition can be extended with optional modules by Connected Business and it's Partners.

Customisable

The Professional Edition includes all the customisable tools and can be extended with plug-in and other customisations.

“

*By using the upsell tools built into
Connected Business, we have increased our
average order by £150 since we switched from
Quickbooks. For us, that's £3 million a year in
additional sales!*

*Our biggest regret is not moving
to Connected Business sooner!*

”

“

We love how the Connected Business Allocation & Reservation feature gives us total control of our inventory. Our sales team can now give accurate ship dates based on incoming purchases and presell items before they arrive. This has had a dramatic effect on our inventory turns, cash flow, and customer satisfaction.

“

With Connected Business, the Accounting is completely automatic. This allows our staff to focus on their work, while the real-time financial data allows for smarter business decisions.

”

Happy With Your Current Accounting Solution? Just Use Connected Business As Your Ecommerce, Order Fulfilment, Inventory management And Shipping Solution

“

Forrester believes that B2B sellers who ignore their customers' online preferences risk losing market share to digital-forward competitors in the coming years.

”

FORRESTER®

B2B eCommerce is Twice The Size of B2C

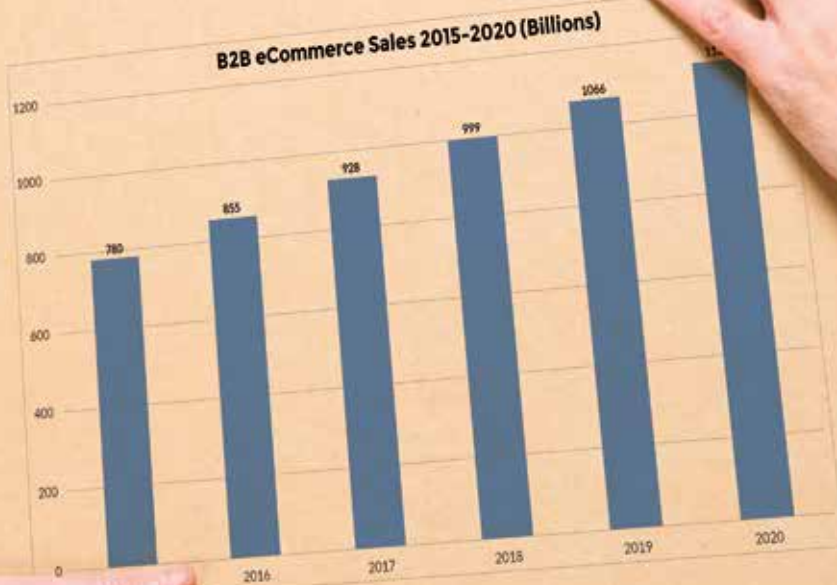

**£290
BILLION**
B2C
eCommerce
Sales

**£600
BILLION**
B2B eCommerce
Sales

81%

of B2B Buyers would choose a supplier that offers online ordering over an equal supplier that does not.

**B2B sCommerce will account for 19.6%
of all B2B sales by 2020**

“

We were skeptical to invest in eCommerce based on previous failures. Since moving to Connected Business our eCommerce sales have exploded, In 2016 our combined B2B & B2C eCommerce sales grew over 80% to over £17 million and continues to grow with no end in sight...

”

“

We use the CRM and Automated Marketing tools to manage leads and market to our existing customers and prospects. For example, every two weeks we send a new products email campaign that includes a coupon code.

Incredibly, the sales generated by each campaign exceeds our best tradeshow.

“

We use the Point of Sale in our factory store, showroom and at tradeshow. We love the iPad version because we can download it from iTunes and immediately be productive.

”

iPad (mobile) & Desktop Point of Sale

“

Connected Warehouse has made a big impact on the way we fulfil orders, print shipping labels, take stock, and manage our warehouse operations. Not only can we ship faster with fewer mistakes, but it also increased the efficiency of our entire business.

”

Warehouse & Shipping Management

*Connected Business is designed for today's
connected business. Connect with Online
marketplaces, Shopping Carts, EDI Providers,
External Order Systems, Third Party Logistic
Companies (3PL) and more!*

“

Connected Business was designed to be scalable and customisable. Whether you are shipping hundreds of thousands of items a day or need to customise the solution to meet your exact requirements, Connected Business gives you everything you need to succeed.
